About

Building complex apps and delivering features that solve real client problems and help businesses grow is what I enjoy most.

For nearly two decades, I've made a significant impact at the companies I've worked for. I work solo, work with teams, and lead when needed.

Comfortable with legacy code, safe refactoring, and gradual modernization.

Experience

- Nov 2022 — **Front-End Team Lead at SellerLogic GmbH.** (sellerlogic.com)
- Apr 2026
- Maintain custom platform: CRA, React, Typescript, Redux-Toolkit (Query), Webpack Module Federation, styled-components, Gitlab (CI/CD), etc.
